Schemax Tech

Junior Web Developer

A motivated and detail-oriented Junior Web Developer with expertise in React.js and Nest.js and Proven ability to develop responsive web applications, collaborate with cross- functional teams, and adapt to evolving industry standards. Excited to contribute technical skills to create engaging and user-friendly web solutions.

Experience

- Developed and designed user-friendly and visually appealing web forms, ensuring an intuitive and engaging user experience.
- Implemented client-side and server-side form validation to ensure data accuracy and completeness, reducing user errors and enhancing data quality.
- Created dynamic forms that adapt to user inputs, providing a personalized experience and improving data collection.
- Identified and resolved issues related to form functionality and user interactions in a timely manner.

Achievements

- Designed and Analyzed a comprehensive master forms, input validations, grid view functionality, and interactive dashboards.
- My team and I collaborated and develop a Data Extraction Web Application that utilizes OCR technology to extract information from PDFs, into digital Inputs. This solution involved the integration of various libraries and tools to facilitate the accurate and efficient extraction of data from diverse sources.
